

# NEW JERSEY MAINSTREAM

FEBRUARY 2005

## FEBRUARY 8, 2005 MEETING PRESENTS:

**ED JAWOROWSKI**, WORLD RENOWNED AUTHOR AND FLY FISHERMAN, WILL GIVE A PROGRAM ENTITLED, "THE EDUCATION OF A FLY FISHER." AN ENTERTAINING, HUMOROUS, AND SOMETIMES IRREVERENT LOOK AT THE STAGES MOST ANGLERS GO THROUGH.

CJTU is one of New Jersey's leading conservation and advocacy groups leading the fight to protect cold-water fisheries and their environments. Our members represent a diverse cross-section of New Jersey and its surrounding areas, but all of us are joined together by a love of trout fishing and a commitment to preserve cold-water fisheries for future generations.

Our mission is to conserve, protect and restore New Jersey's cold water fisheries and their environments. In order to achieve our goals, we conduct habitat improvement projects, stream clean-ups, and educational programs among other activities. We strive to educate the next generation about the importance to preserve clean water and wild trout. While engaged in conservation efforts, we manage to have a lot of fun, whether at monthly meetings, chapter fishing trips, or stream projects. We invite you to join us.

## PRESIDENT'S LETTER

---

Fellow members,

First, I would like to say thanks to all those who participated at the Garden State Outdoors show in Edison. It's always fun to catch up with current members and tell the "TU" story to those who show interest at the booth. I personally spoke with several perspective members and hope to see them at one of our meetings. We will be at it again this weekend at the Somerset Fly Fishing Show. As you interact with those who share our passion, please keep in mind our mission: to conserve, protect and restore New Jersey's cold water fisheries and their environments.

With the mission in mind, please remember two important NJ Bills still in committee, A2642 and A2852. These Bills are aimed at restructuring the NJ Division of Fish and Wildlife, which would allow political opinions to overrule those based on science when dealing with environmental issues. Please take the time to review these bills (see Political Beat) and write your local Assemblyman stating your opposition to these bills. Since we can't be practicing conservation out on the water this time of year, let's try to do it via the pen and paper.

For our general meeting in February, we will have Ed Jaworowski, world renown author and fly fisherman. Ed will be presenting his program entitled, "The Education Of A Fly Fisher." I'm told this is a unique program, which addresses the various stages most anglers go through during their fishing careers. Plan on this being an entertaining and humorous evening worth bringing the entire family to.

Also at the February meeting, we will be hosting our first youth "special drawing." The lucky winner of this drawing will have his or her choice of a fly fishing or spinning outfit. This drawing is open to all youth 16 years and younger in attendance.

See you this Tuesday, February 8.

*Rich*

Richard Thomas

---

Just after our January meeting I found out about two bills that might help with keeping Commissioner Bradley M. Campbell at bay. A3606 and S2148 are identical bills introduced by Assemblywoman Alison Littell McHose, Assemblyman John C. Gibson, Assemblyman Douglas H. Fisher, and Assemblyman Ronald S. Dancer which would, if passed, give sole authority to regulate freshwater fishing, hunting, and trapping to the Fish and Game Council. This will empower the Fish and Game Council to be the sole State governmental entity responsible for determining whether or not any species of fresh water fish, game bird, game animal, or fur-bearing animal may be fished, hunted, or trapped, and in determining what circumstances, when and in what localities, by what means and in what amounts and numbers those species may be fished, hunted, or trapped. These bills strengthen the existing law and give the council autonomy to govern all matters pertaining to fish and game in the state. I support these bills and I want our membership to write and let the sponsors know they have our support.

Now for the kicker. On January 13, 2005 Assemblywoman Loretta Weinberg, Assemblyman Reed Gusciora, and Assemblyman Wilfredo Caraballo introduced A3728 which if passed says the Commissioner of Environmental Protection shall have veto authority over any type of hunting season or authorized taking of game birds, game animals, and fur-bearing animals. As you all know I don't want sole power over any of our natural resources to be given to one political appointee who serves at the pleasure of the governor. We all know in a state where pay to play is the rule, science cannot compete with a blank check. While the Commissioner of Environmental Protection serves at the pleasure of the governor do we ever really know if the governor serves at the pleasure of the voters of New Jersey or the blank checks? Our natural resources are a gift to all in New Jersey and must be managed by science, not the Legislature, Governor, Commissioner, nor those who are writing checks to gain influence.

It is plain than this bill burns me more than A2642 and A2852 because of the obvious disregard for science and public debate. The Fish and Game Council holds regular meeting and public forums where all can comment on changes in fish and game management. The commissioner stopped holding meeting with groups in the hunting and fishing community regarding our natural resources. I know I attended his last one

11 months ago. I don't want our resources managed by a totalitarian system. A3728 is moving in that direction. If you haven't written please do, we need every one to write the sponsors, and the governor. I would not only write explaining how you want New Jersey's fish and game to be managed, but I would also request that Commissioner Bradley M. Campbell resign.

A2642 and A2852 are still in committee, and are alive and well.

Both bills would amend current law to provide that the Commissioner of Environmental Protection shall select the Director of the Division of Fish and Wildlife, and the director shall serve at the pleasure of the commissioner. Under current law, the Director of the Division of Fish and Wildlife is selected by the Fish and Game Council, subject to the approval of the governor and serves at the pleasure of the council. These bills would also amend current law to make all regulatory and policy decisions of the Fish and Game Council subject to the approval of the Commissioner of Environmental Protection.

These bills shift control of our resources from science to political appointees. You all know I want good science behind the decisions on how to manage our fish and game resources. Hunters and fishers pay via license fees for the science and management of fish and game in this state. Those funds cannot be used for anything else and go back to the resource for all to enjoy. I want a non-political body that will base its decisions on science from field biologists not a single political appointee who may be beholden to the governor (and those checks). Write Assemblyman Reed Gusciora the author of A2642 and A3728, Assemblyman Anthony Chiappone the author of A2852 and all the members of the Assembly Agriculture and Natural Resources Committee: Assemblyman Robert J. Smith II, Chair; Assemblyman Douglas H. Fisher, Vice Chair; Assemblyman Herb Conaway Jr.; Assemblyman Ronald S. Dancer; and Assemblyman John C. Gibson;

Contact acting Governor Richard J. Codey, Reed Gusciora, Anthony Chiappone, Loretta Weinberg, and Wilfredo Caraballo, at:

Sample letter opposed to A2642 and A2852.

Honorable (Assembly-person)

As an avid sports-person living in New Jersey, I would like to express my strong objections to Assembly Bill 2642 (A2852).

I support the current Fish and Game Council and strongly object to any changes to this body. The Fish and Game Council is doing an outstanding job in managing our fish and game resources, based on science. I have four major objections to A2642 (A2852): first the language removing "for their use and development for public recreation and food supply"; second new members to the council would be appointed by the governor and could have no expertise in fishing, hunting, farming and trapping issues; third the bill gives ultimate power to the Commissioner of Environmental Protection who can overrule the council; and finally it moves the council from a body that makes decisions based on science, to a political body.

A2642 will negatively impact the fish and game resources that I love. So in the strongest language possible, I respectfully request that you WITHDRAW Assembly Bill 2642 (2852). I cannot support A2642 (A2852) and respectfully request you do not.

Sincerely,

Your Name

---

---

## CONNETQUOT TRIP

---

Connetquot trip on Monday, February 28th, 2005. Too cold.....naww..... get first crack at those big browns and bows. Bus will leave from from the Bridgewater promenade, between Costco and Petsmart at 5:15 am. Cost is \$75 with an activity fee and \$85 without and will be collected at the general meeting on Tuesday, February 8<sup>th</sup>.

---

## SPECIAL YOUTH FISHING OUTFIT GIVEAWAY

---

Any child 16 years of age or younger attending our February 8<sup>th</sup> meeting with an adult will be in a special raffle for a fly or spin fishing outfit and a one year membership to Trout Unlimited.

This Youth Fishing Outfit Raffle is free to all 16 years or younger, no purchase is necessary, and winner must be present. Meeting will start at 7:30PM

---

## POLITICAL BEAT (CONT.)

---

Sample letter opposed to A3728.

Honorable (Assembly-person)

As an avid sports-person living in New Jersey, I would like to express my strong objections to Assembly Bill 3728.

I support the current Fish and Game Council and strongly object giving the Commissioner of Environmental Protection veto authority over any type of hunting season or authorized taking of game birds, game animals, and fur-bearing animals adopted by the State Fish and Game Council.

The Fish and Game Council is doing an outstanding job in managing our fish and game resources, based on science. I object to A3728 because it gives ultimate power to the Commissioner of Environmental Protection who can veto the council without public input or debate.

The Commissioner being appointed by the governor and need not have any expertise in matters of managing fish and game. The Fish and Game Council has the expertise to management of New Jersey's fish and game through science and public forums.

A3728 is moving the management of fish and game towards totalitarian system. So in the strongest language possible, I respectfully request that you WITHDRAW Assembly Bill 3728. I cannot support A3728 and respectfully request you do not.

Sincerely,

Your Name

Please act and get others to write.

I know I keep asking the membership to act but there is no issue more important than this one that effect the future of the management of our natural resources.

From the recent events with Commissioner Bradley M. Campbell and bills in the Legislature a new coalition made up of conservation, hunting, and fishing groups is forming an organization to take on these issues. The New Jersey Outdoor Congress mission is to fight the serious and ongoing threat to scientific management of New Jersey's fish and wildlife – a public trust too important to leave in the hands of politicians, whose intentions may be more to get votes than to conserve the resource.

For more information on the New Jersey Outdoor Congress go to <http://www.njoutdoorcongress.org/>.

## DAY TRIP TO THE TULPEHOCKEN

FEBRUARY 26, 2005

On February 26th, The 2005 CJTU fishing trip program will kick off with the first of several day-long trips to Tulpehocken Creek in Berks County, Pennsylvania. The Tulpehocken is a large, wide stream with a moderate gradient. With a travel time of one hour and forty-five minutes, it is the closest tail-water to Central Jersey, beginning at Blue Marsh Lake and continuing for nearly 3.8 miles to the parking area at red covered Bridge, the lower end of the special regulations area. Wading the stream's riffles and glides is not difficult unless water levels are high. Handicap fishing platforms have been constructed close to the dam, and parking areas are provided all along the special regs stretch.

The Tulpehocken trip will be friendly to novice anglers as well as challenging to the more advanced. Participants must have paid their 2005 chapter activity fee, and must also have a 2005 Pennsylvania fishing license.

There is only room for a few more, so sign-up at the February membership meeting or call Hal Fish at (732) 549-1293 to reserve a spot. Directions will be available at the February trips table. If the weather cooperates, this should be a fun trip and great fishing.

--Stuart Shafran

---

## PAL SPORTSMAN EXPO

FEBRUARY 12 & 13, 2005

The tenth annual PAL Sportsman's Expo will be held on February 12th & 13th at the PAL Athletic Center on Baldwin Road in Parsippany. The show will run from 9 am to 5 pm on both Saturday and Sunday. CJTU will be hosting a booth at this event to help promote Trout Unlimited and trout fishing in the Garden State. Fishing info, raffle tickets, membership applications, CJTU gourmet coffee,

and hand-tied flies will be available at our booth. Members are invited to stop by and sit with us to help answer questions. Fly tiers are always welcome. Directions to the Expo will be available at the Novice Table at the general membership meeting on February 8th. You may also call for directions at (973) 822-2395.

--Stuart Shafran
